## A Closer Look:

- 1 Multi-chambered, welded vinyl mainframe and sashes provide superior strength and durability.
- 2 3/4" SolarZone™ glass with Intercept® spacer technology ensures optimal energy efficiency to keep your home comfortable in every condition.
- 3 Cam locks improve strength and ensure an extra-tight seal.
- 4 Metal reinforcements at the meeting rail and latch enhance strength and protection against wind and weather.
- 5 An interlock at the center rails provides a firm seal for improved weather-tightness.

## SolarZone™ Insulated Glass:

SolarZone insulated glass packages are offered to help you reduce heating and cooling costs while keeping your home a pleasant temperature. In warm weather, SolarZone reduces solar heat gain, minimizes interior glare, and lowers inside glass temperature to save energy and increase comfort. In cool weather, the SolarZone package provides outstanding thermal performance with warmer inside glass surfaces to help save energy and keep cold weather out.

## Color Options:

Color options are available for both interior and exterior design.

White

Adobe

## Grid Options:

Grids-between-the-glass allow for easy cleaning and are offered in a variety of colors and sizes. Grids are available in multiple standard and custom patterns to achieve your desired aesthetic.
