3000 Series
in White.

AMERICA'S EXTERIOR REMODELER

Improving Homes. Changing Lives.

3000 SERIES

SINGLE-HUNG AND
SINGLE-SLIDING WINDOWS

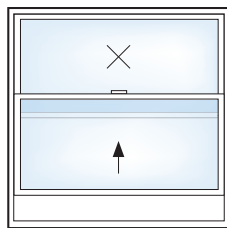

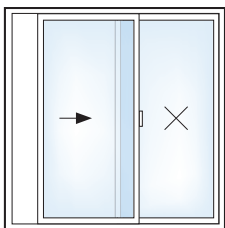

Single-Sliding Windows
in White.

Single-Hung Windows
in White.

Attractive and Durable, Window World 3000 Series Single-Hung and Single-Sliding Windows impart practical sophistication and remarkable energy efficiency.

As their names imply, Single-Hung and Single-Sliding Windows feature one operable and one fixed sash. With a variety of design options including hardware finishes, colors, and grids, Window World's 3000 Series line provides extraordinary design flexibility and unparalleled performance.

The World Is Your Palette.

You won't believe the difference a little color can make. Whether you want to complement a palette you already love or start fresh, our exterior color choices can help any home look its best.

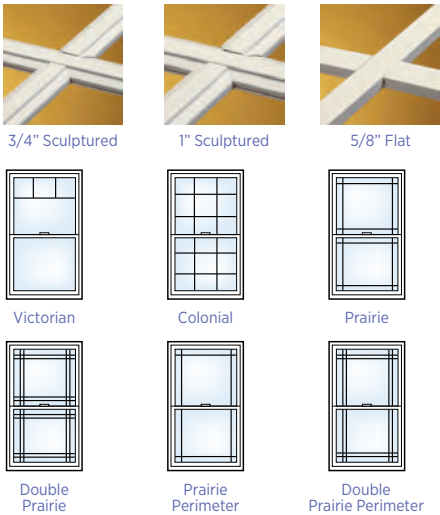

Reliably Secure.

Our attractive hardware is ruggedly built and pairs beautifully with existing finishes on drawer pulls, hinges, and appliances, combining true style and strength.

Window World

Built For Maximum Value.

- Backed by a lifetime limited transferrable warranty*, our windows provide years of worry-free comfort and protect the resale value of your home.
- Mull together in multiples or mix with other window types such as picture windows, casements, or awnings for added functionality and architectural appeal.
- Double-walled stucco flange adds aesthetic depth to the frame.
- Fusion-welded mitered corners on frames and sashes mean stronger, more contemporary looking windows.
- Vent stops pop out to control ventilation.
- Activating the flush mount tilt latches allows single-hung windows to tilt in for easy, indoor cleaning.
- Cam locks are available in multiple finishes to match most any decor.
- Overlocking interlocking rail keeps out moisture in even the most extreme weather events.
- Integrated pull rails provide more access points and better leverage for opening and closing.
