# 5000 SLIM LINE SERIES

## VINYL REPLACEMENT WINDOWS

### Why choose the Window World 5000 Slim Line Series?

The Window World 5000 Series features what you want most from a window: Less frame and more glass. Thanks in part to its unique frame design, the Window World 5000 Series outperforms ENERGY STAR® standards to help reduce your heating and cooling bills. Not only energy efficient, the 5000 Series will add to the architectural appeal of your home. Choose from a wide variety of styling options designed to make your home stand out, from colors and hardware finishes to decorative glass and grid designs. The Window World 5000 Series is the perfect replacement window that you'll enjoy for years to come.

#### **More daylight. More choices.**

5000 Series windows make a big impact on the appearance of your home—both inside and out. Available in a variety of styles and limitless number of configurations, the Window World 5000 Series is the ideal choice to transform your home.

A shallow 2 7/8" frame depth means 5000 Series windows may not require you to replace existing window treatments...saving you time and money!

- Get up to 40%\* more daylight
- Let the daylight in with the 5000 Series...and enjoy optimum energy efficiency and great design, too.

\*The 5000 Series has 40% more glass than our leading competitor in a 31" x 21" picture window. For a 36" x 36" slider window, the 5000 Series provides 20% more viewable area than our leading competitor.

**Window World 5000 Slim Line Series.**

Beautiful Window World 5000 Series bring a new look to your home with exciting geometrics, completely new styles or mulled configurations. Whatever vision you have for your home, you can make it happen with Window World 5000 Series.

A geometric window can serve as a dramatic, stylish accent. What's more, Window World 5000 Series operable geometric windows are fully functional.

Replacing a picture window with a bay or bow window opens up your home, bringing the outside in.

Leading Competitor

Slim Line 5000 Series

5000 Series windows are more energy efficient, easy to open and allow more light than aluminum windows.

Bow

Integrated pull rails (IPR) prevent screen damage unlike traditional pull tabs.

Baffled weeps help prevent bugs and debris from entering your home.

Single hung windows tilt in for easy cleaning. They also have reliable and uniform opening and closing pressure optimized by constant force balance systems and double-strength glass that weathers beautifully over time.

## VINYL REPLACEMENT WINDOWS

Small details make a big difference.

At Window World, we know the thoughtful attention to the small details distinguish an ordinary window from a great one. That's the difference when it comes to making a house a home.

- A** A mitered glazing bead provides a neatly finished appearance.
- B** The interlock features the same narrow, low profile design as the frame, for attractive symmetry.
- C** Weep holes are covered by small baffles to keep insects out and provide a finished look.
- D** Integrated Pull Rails (IPR) allow you to handle the screen from anywhere along the edge and will never break out the way pull tabs can.

### Virtually limitless configurations. Beyond the basics.

Window World 5000 Series windows are available in frame styles to meet every installation and architectural need. Select from one of four decorative trim frames or ask your installer what custom trim options they offer.

**Bullnose Frame\***

Featuring edges that are more rounded than most other trims, our Bullnose Frame complements contemporary or casual design approaches.

**Brickmould Frame**

Ideal for enhancing traditional decor, our Brickmould boasts a multi-tiered, sharp-edged, classic look.

**Craftsman Frame**

Although designed to match other features popular in Craftsman-inspired homes, our Craftsman window trim is versatile enough to suit many exteriors.

**Block Frame**

For homeowners who favor a more raised profile with squared-off edges, our substantial Block Frame is a can't-miss choice.

\*Not available on Casement and Awning windows.

## A high priority on energy savings.

Window World 5000 Series windows are designed to be as energy efficient as possible to conserve natural resources and help you save on utility bills. Engineered for superior thermal performance, these windows make it possible to achieve just the right degree of warmth or cooling in your home without having to frequently adjust your thermostat. If you're looking for eco-friendly, year-round comfort, the Window World 5000 Series is a smart choice.

### Judging performance by the numbers.

Today's windows are tested for energy efficiency by rating them on two criteria: the U-Factor and Solar Heat Gain Coefficient. The U-Factor measures heat transfer—gain or loss—through glass. The Solar Heat Gain Coefficient measures how much solar radiation passes through glass and is released as heat. For both indications, lower numbers mean greater energy efficiency. The Window World 5000 Series is available in five different energy packages, giving you the flexibility to choose the level of energy efficiency that best fits your needs and values.

If you live in a noisy area, ask about specialty glass designed to reduce unwanted noise infiltration.

### Available Energy Packages

#### ENERGY PERFORMANCE RATINGS

		U-FACTOR (US/I-P)	SOLAR HEAT GAIN COEFFICIENT	<b>LOWER RATINGS = MORE EFFICIENT</b> 
SolarZone™	Low E <sup>2</sup> , Argon, Intercept	<b>.30</b>	<b>.33</b>	
SolarZone™ Elite	Low E <sup>3</sup> , Argon, Intercept	<b>.29</b>	<b>.23</b>	
SolarZone™ Elite Sunshield	Low E <sup>3</sup> Plus, Argon, Intercept	<b>.29</b>	<b>.15</b>

## VINYL REPLACEMENT WINDOWS

### Imagine the possibilities.

Window World 5000 Series windows and doors open up an entire world of design possibilities for your home. Window World 5000 Series has a portfolio of styling options that empowers you to create a look that's distinctively yours. Choose from vibrant exterior colors, hardware cast in elegant metal finishes, decorative privacy glass, and nearly unlimited grid options to give your windows their own unique look.

#### Window World interior and exterior colors.

Choose a frame color that complements your home's existing trim. Or, select a color that provides a striking contrast. Either way, you won't believe the difference a little color will make. Windows with Window World exterior painted custom colors come with a white or tan vinyl interior.
